

ASSIGNMENT-II

PART-A

- 1.What are the different types of multiple access schemes?**
- 2.What is meant by frequency reuse?**
- 3.State advantages of CDMA over FDMA?**
- 4.Differentiate soft and hard handoff.**
- 5. What do you mean by Polling?**
- 6. What do you mean by Channel Assignment?**
- 7. Define Grade of service.**
- 8. Explain about TDMA techniques.**

PART-B

- 1.Describe the Operations of Cellular systems and Explain it steps with a neat sketch.**
- 2.Explain in detail about multiple access with collision avoidance scheme.**
Also explain the advantages of the same.
- 3.Explain in detail a handoff scenario at cell boundary.**
- 4.Explain the various methods that increase the system capacity.**
